

Training and Assistance

Whether you are using the Ponemah Physiology Platform for the first time, upgrading to a new version, or just need additional training or support DSI can assist every user's needs. DSI offers a wide variety of training and assistance options.

On-site Operational Training

On-site training is available for purchase. The DSI technical support group will work with the customer to customize training for software and hardware. A DSI colleague will travel to the customer site and provide the needed training and assistance. The on-site training is sold on a per day basis (travel related expenses are invoiced separately).

Training Materials

DSI has training materials available including modules for surgical practice, training videos for implants, ECG lead placement for multiple species, and product manuals. Please contact your DSI representative for more information.

Training at DSI sites

Additional training can be conducted if users travel to one of the DSI sites. DSI Ponemah software and hardware training can be provided at either the St. Paul, MN or the Cleveland, OH site. Surgical assis-

tance and training can be conducted at the St. Paul, MN site. Please contact your DSI representative for more information or information on how to schedule a session.

On-line Training and Assistance

The DSI technical support team can conduct training sessions for software and hardware using GoToMeeting™. These sessions are useful for users to brush up on the system, get help with troubleshooting, or perform particular setup activities. Please contact DSI for more information or to set up a GoToMeeting™ session.

On-site GLP Assistance

On-site GLP assistance is available for purchase. The DSI GLP team will work with the customer to customize assistance with reviewing the GLP test plans purchased through DSI (Validation Support Package PNM-VSP7). A DSI colleague will travel to the customer site and provide the needed assistance to tailor the GLP documents to the users needs. The on-site GLP assistance is sold on a minimum 2-day basis (travel related expenses are invoiced separately).
